Needs overview

Forty years of onset conflict profoundly affected the people of Afghanistan. Conflict-induced civilian deaths reached a record high in 2018, with the United Nations Assistance Mission in Afghanistan (UNAMA) documenting 10,993 civilian casualties, whilst the first half of 2019 already saw 3,812 casualties. In addition, over 230,000 Afghans are currently conflict-displaced, whilst an additional 225,000 people have been displaced due to a natural disaster.

Against this backdrop, thousands of Afghan refugees spontaneously return or are forced to return from Pakistan and Iran each year. Despite the high levels of needs, the Humanitarian Response Plan (HRP) is only 41 percent funded, and the scope of the HRP is heavily biased towards emergency response activities, currently precluding broader humanitarian and resilience-building activities.

Vision: Our vision is community empowerment, economic self-reliance and reduction of social vulnerabilities.

Mission: To empower the community in collaboration with civil society in order to implement multi-sector rehabilitation and development projects that foster self-reliance, self-sufficiency and relate the socio-economic conditions that promote peace and empower Afghans.

ORD’s Operation

1. Humanitarian: ORD assists internally displaced Afghans and Pakistani refugees, and to a lesser extent returning refugees. In the aftermath of violence and disaster, we give immediate, emergency assistance in WASH, FSAC, Protection, ES-NFI, and Education,

2. Livelihood – Economic Empowerment, and vocational trainings where the effects of long-term displacement have taken hold, we work to find lasting solutions. Our regional and cross-border programs address the effects of the conflict, as do our PSN teams. We place significant importance on helping displaced people in hard-to-reach areas and the empowerment of women. Also, ORD has been implementing Climate-Smart Agriculture and Economic Empowerment in North and Southeast regions.

3. Development: Since establishment, ORD has been implementing a wide-range of projects in health infrastructure with soft components, education infrastructure with soft components, agriculture & Sport infrastructure and many more regional integration and cross-border cooperation in fragile border areas of Afghanistan including East and Southeastern regions.

BUSINESS TYPE NON FOR PROFIT
ESTABLISH DATE MAY 13, 2010
AVG. ANNUAL TURN OVER - 2020 5,600,000.00 USD
AVG. STAFF (Male & Female) – 2020 164
Livelihood, Protection & ES-NFI

1. Community Based Protection (CBP) - CBP programme aims to build and strengthen community resilience through participatory interventions and support the government structures in addressing protections risks.

   **Donor: UNHCR**

2. Assessment, Assistance and Referral of identified Persons with Specific Needs (PSN) - This program seeks to assist persons with specific needs through the provision of unconditional cash, in kind assistance and referral to different services providers private or governmental, protection or humanitarian actors, or state protection structures.

   **Donor: UNHCR**

3. Warehouse Management and Distribution of Core Relief Items - Throughout this program, ORD try’s to meet immediate needs of most vulnerable categories of persons of concerns, mitigating the effects of vulnerabilities and enhancing positive coping mechanisms. ORD will supplement the assistance generally provided to persons of concerns by donors and its implementing partners and will support IDPs’ resilience in the acute phase of displacement.

   **Donor: UNHCR**

Livelihood, Food Security & Agriculture

1. Asset Creation – Food for work & Cash for Work - This program aims to build community capacities and assets through community mobilizers to reduce the social and infrastructural disaster risks and to promote food security through developing and constructing of agriculture and irrigation facilities in South East region.

   **Donor: WFP**

2. Conditional Seasonal Support – Food & Cash Based CSS-Food/CSS-Cash - Throughout this program, ORD seeks to support short term food security through conditional distribution of food or cash and to enhance food security through carrying out various activities in SE region.

   **Donor: WFP**

3. Support Food – USS-Food - This program aims to prevent a deterioration of food security among food insecure host population during lean season.
4. **Provision Shelters** - ORD implementing the construction/provision of various types of shelters to provide life-saving assistance and to support IDPs, returnees and non-displaced shock affected people to meet their emergency needs in North/Northeast regions.

**Donor: UNOCHA & UNHCR**

5. **Winterization Assistance** – ORD provides winterization assistances to provide life-saving assistance and to support IDPs, returnees, and non-displaced conflict and COVID-19 pandemic affected people to meet their emergency needs through the provision of cash for fuel and heaters and in-kind for blanket packages and winter clothing kits to reduce the likelihood of disease and death during winter season.

**Donor: UNOCHA & UNHCR**

**WATER QUALITY, SANITATION AND HYGIENE (WASH)**

1. **Independent monitoring (Quality Assurance) for rural water supply projects** - ORD has been carrying out the independent monitoring (quality assurance) of UNICEF funded water supply systems in North and North-eastern regions of Afghanistan. through this program 280,000 people in 300 to 400 communities of NNE region will be reached during 2020 and 2021 years

**Donor: UNICEF**

2. **Life-saving emergency responses** - Our emergency Water, Sanitation and Hygiene response interventions are aimed at life-saving in the early stages of a crisis and target recent internally displaced persons and returning refugees, and communities affected by conflicts and natural disasters.

We maintain a robust emergency Water, Sanitation and Hygiene capacity in the form of fully equipped and readily deployable Emergency Response Teams, strategically located stockpiles of commodities and resource mobilization capacity to launch rapid Water, Sanitation and Hygiene assessments and response in the majority of country’s crisis-ridden provinces; ORD’s WASH experts closely work with the shelter, education & health teams to promote integration and safe programming. Our WASH teams:

- provide emergency water supply and sanitation facilities and supporting good hygiene practices for affected vulnerable populations;
- construct households improved latrines and access to safe water through community water points;
- provide safe drinking water points, access to improved sanitation, hand washing facilities in schools, and establish grey water filtrations in schools for waste water management.

**Donors: UNICEF, UNHCR & DPA**

ORD has been implementing this program in south east region.

**Donor: WFP**

4. **Minimizing potential Impacts of COVID-19 on agriculture-livelihoods of vulnerable and food insecure households through Anticipatory actions** - ORD implement this program in south eastern region to mitigate the potential adverse impacts of COVID-19 on vulnerable Kuchis, women-headed, landless labourers and marginal farming households.

**Donor: FAOAF**

6. **Time-critical Emergency Agriculture inputs assistance to Marginal and food insecure farming households** - ORD implement this program in south eastern region under FAO’s funding aiming to protect the agriculture livelihoods of vulnerable marginal farming households from the adverse impacts of COVID-19 shock and worsening of existing food crisis in Afghanistan by providing time-critical and season-sensitive assistance in the form of quality agriculture inputs, related technical training and awareness building on COVID-19 safety measures to adopt during farm level practices and market participation.

**Donor: FAOAF**

**Development & Infrastructure**

Infrastructure construction is ORD’s core activity; ORD constructs **schools for boys and girls**, **technical vocation institutions**, **hospitals**, **sport stadiums** and **water intakes**. All construction activities carried out in close coordination with project’s stakeholders including donors, government, local communities and building their capacity for maintenance of buildings to ensure sustainability. ORD has developed its own designs with emphasis on quality and cost-effectiveness, as much as possible based on use of locally available material and labor. All construction projects have a one-year warranty. Expected durability exceeds 100 years. All buildings so far constructed by ORD are still functioning.

**Donor: PATRIP FOUNDATION & NCA**
ORD is grateful for the generous support from our donors
